RUNNER-UP

This rustic home was designed to be environmentally passive, yet stylish and contemporary.

A pathway of 1m-wide pavers leads through a pergola and timber-lined porch to a grand entry.

Double doors open to a light-filled foyer that overlooks a water feature, while a large study on the left overlooks the front garden.

Creative zones for family, kitchen and dining make up the living area. The kitchen features a reconstituted CaesarStone benchtop and coloured glass splashback.
